**RE: Ex Parte Presentation in WC Docket Nos. 04-36 and 05-196**

Dear Ms. Dortch:

This is to inform you that on July 6, 2005, Barry Bishop, Amy Putnam, Tom McGarry and the undersigned, all of NeuStar, Inc. (NeuStar), participated in a meeting with Cheryl Callahan, Sanford Williams, Greg Guice, Marilyn Jones, and Mika Savir of the Telecommunications Access Policy Division of the Wireline Competition Bureau (“WCB”) and Christi Shewman and Nick Alexander of the Competition Policy Division of WCB to discuss issues associated with the use and management of “pseudo-ANI” or “p-ANI” and ESQK (Emergency Service Query Key) for purposes of routing 911 calls.

At the request of WCB staff, NeuStar identified a range of legal and operational issues associated with the potential central administration of p-ANI and ESQK numbering resources. Among the specific topics discussed were the general role and potential detailed responsibilities of a central administrator of p-ANIs. In particular, we discussed issues associated with initiating administration, managing resources on an ongoing basis, qualifications for obtaining such resources, limitations on scope, use and distribution of resources, the identification of relevant non-dialable resources, and potential monitoring and reporting requirements. We also discussed the potential timeframe required for establishing a central administrator along with the various roles and obligations of the key public safety groups, industry standards setting organizations and service providers.

Ms. Marlene H. Dortch
